

WESTERN AUSTRALIAN OWNED & OPERATED

Delivering trust. **Moving success.**

Bulk haulage. Freight transport. Logistics solutions.

Benipal Brothers connects Perth, regional Western Australia and remote operations with transport shaped around your business. We bring practical planning, experienced people and capable equipment to every movement.

Transport that fits your load.

Bulk haulage, general freight and project logistics, matched to your job.

Local knowledge. WA-wide reach.

From Perth to regional routes and remote mine sites, we know the road ahead.

Putting Safety First at every step.

Experienced operators, maintained equipment and a strong focus on compliance.

Big distances. Personal commitment.

Reliable transport solutions backed by a team that takes the time to understand your needs and deliver with care.

OUR CAPABILITIES

Your load. Our expertise.

Transport and coordination shaped around the cargo, route and receiving site.

01 Bulk haulage

Bulk materials for the operations that keep Western Australia moving.

- Bulk commodities
- Agricultural products
- Grain transport
- Forestry & logging
- Fertiliser transport
- Quarry products

02 Logistics solutions

Practical coordination for remote sites, project teams and long-term partnerships.

- Mine site logistics
- Project logistics support
- Subcontract transport services
- Remote area freight
- Long-term transport contracts

03 Freight transport

Dependable freight movements for metro, regional and mining operations.

- General freight
- Refrigerated transport
- Regional distribution
- Container transport
- Mining freight

Discuss the load, route, timing and equipment requirements with our team. We work with you to understand site access, loading arrangements and delivery windows, helping plan a practical transport solution for each movement. Whether you need a one-off delivery or ongoing support, we coordinate the details around your operations.

FLEET & EQUIPMENT

Equipment for the task.

Late-model prime movers supporting mining, construction, agriculture and infrastructure. We match equipment to the cargo, route and receiving site, considering load requirements, access conditions and delivery schedules. From metropolitan freight to regional and remote movements, our team plans each task with a focus on safe, practical transport.

Up to 175 tonnes GCM

Gross combination mass is the combined mass of the vehicle combination and its load.

EQUIPMENT & TRANSPORT EXPERIENCE

Our team brings practical experience across bulk haulage equipment and a range of freight requirements. This knowledge supports equipment selection and planning around the load, route and delivery site.

Bulk haulage equipment

- Pneumatic tankers
- End tippers
- Grain tippers
- Side tippers
- Road trains

Freight & specialist transport

- Oversize loads
- Container transport
- Refrigerated freight
- Drop deck equipment
- General freight vehicles

PEOPLE & SAFETY

Responsible people. Reliable operations.

Our management team brings extensive experience in transport, logistics, mining support and freight management throughout Western Australia.

MANAGEMENT & COORDINATION

- Transport planning and scheduling
- Logistics coordination
- Customer relationships
- Compliance and safety administration
- Fleet management
- Contract administration
- Operational performance oversight

Professional drivers

Knowledge of WA roads, bulk haulage, mining transport and remote operations, supported by:

- Relevant licences and qualifications
- Random drug and alcohol testing
- Fatigue management compliance
- Site procedures and required inductions
- Load restraint knowledge
- Professional standards of conduct

Fleet standards

Late-model, professionally maintained equipment with a focus on safe, reliable operation.

- Fully registered and roadworthy
- Regular servicing and inspections
- Preventative maintenance programs
- Qualified, licensed mechanics
- Main Roads WA and transport compliance
- Comprehensive insurance coverage

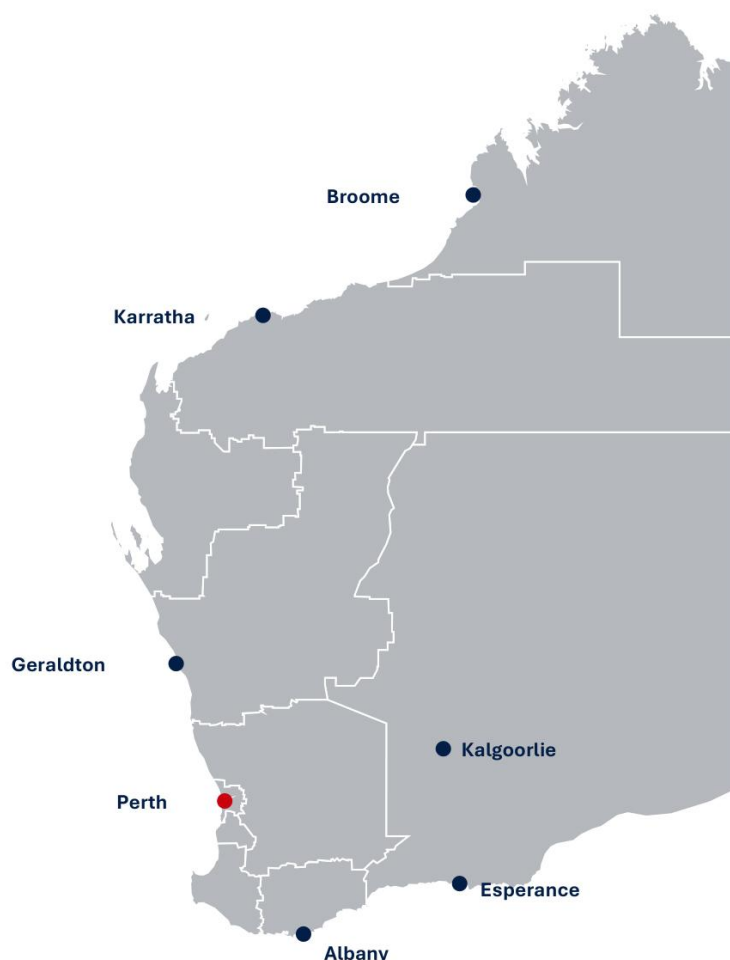

Safety is the foundation of our operations.

A commitment to health, safety, environmental responsibility and regulatory compliance. Our approach combines maintained equipment, load restraint, fatigue management and site-specific procedures. From planning and pre-start checks to loading and delivery, our team considers the conditions of each task and coordinates with site contacts to support safe operations.

OUR COVERAGE

INDUSTRIES WE SUPPORT

Mining & resources

Freight for mine sites and remote operations, with access, receiving arrangements and delivery schedules planned ahead.

Construction & infrastructure

Bulk materials and project freight coordinated around site access, delivery windows and the sequence of work.

Agriculture

Grain, fertiliser and farm freight connecting growers with storage and receival points through the seasons.

Forestry & logging

Timber movements from forest operations to processing facilities, with routes, loading conditions and receiving windows considered.

Quarry operations

Quarry products delivered around site needs, with volumes, collection times and unloading requirements agreed upfront.
